Correspondence of The Shelby News. FROM ALABAMA. CORNCOCK, ALA.

To the Editor of The Shelby News: DEAR SIR:—Accidentally I got the reading of your excellent paper a few days ago, of the 3d September, and discovered the energy with which you are combating demagogism and self-styled Democracy, as now exhibited by the demagogues in place and power. I am highly gratified with your defence of Mr. Fillmore, and the exhibition you make of the inconsistencies so flagrantly exhibited of the powers that be, and those that would be.

I have been astonished, that in calling the attention of the country to the necessity of a new administration, an argument has not been laid before the people based on the practice of the present Democratic rule at home, in which every man is deeply concerned; especially in the new States, where the Government sells out the great body of the soil to the laboring man. In my opinion, this matter laid fully before the mass of our people would produce more effect, in setting them to solid thinking, than any other. During the last few years, several laws have been passed for the benefit of the laboring part of the people in the new States; all of which have been made shaving machines in the hands of subordinates, appointed to office by the Democracy, and thus defeating the benevolent intentions of our law-makers. Among these acts are the laws granting preemption rights, military bounty land warrants, and last, but not least, the one graduating the price of public lands. All these laws have been made use of by the officers of the Land Office, through the new States, as means of imposition and fraud on the settler, and on the Government itself. And the present Administration knows it! But so many hungry friends in office not a word is said; no inquiry into the complaints of the land purchasers; although the frauds practiced on them are to an amount astounding.

It is notorious, that the officers of land offices have pocketed, in the face of laws and instructions, per annum, beyond any Secretary of the Government, in the shape of illegal fees, taken from land buyers, through fraud and imposition. This fact every man in the new States knows, and the Administration has been loudly told of it; but it is winked at by them.

Mr. Fillmore usually sent a capable man round the public offices, (land offices especially) to ascertain how they were conducted. But this excellent restraint has been dropped by the present powers that be; and now a hundred Gardners might plunder away in safety. The act of Congress meant to secure to the laboring man a certain description of land, at 124 cents an acre; while not a foot has been sold, in several districts, at that price. But after the purchaser is done paying illegal fees, he pays 15 to 20 cents per acre to the subordinate, or land office officer, who accounts to the Government for 124 cents. And this is not all; for it is ascertained that hundreds of fictitious preemptions have been filed, to keep the sale of the valuable lands back until the period arrives of the next reduction in price. Maps are marked "sold," for the same purpose—to mislead the less informed purchasers at the land offices. Thousands of acres are held from sale in this way; and money even given back to purchasers, to buy land warrants, to get the land at a reduced price. All this imposition and corruption have been going on for now two years; and the Administration knows it. This is Democratic rule!

It would certainly be proper that the people knew these facts, to enable them to view the present Administration as it deserves to be. Yet I have never heard the subject even broached.

One citizen of Shelby, I have thought proper to put these facts—which you may rely upon to your possession, that you may make the proper use of them, for the public good.

JOHN L. JAMES.

NEW BULLET MACHINE.—An exchange says a machine has been invented which will make two hundred bullets per minute out of cold lead. Parson Beecher will probably purchase the right for sixteen States and Kansas.

MELANCHOLY.—A little son of Mr. Alex. C. Shackelford, named Edmund Blackburn, between 2 and 3 years of age, was drowned late on Monday afternoon, in a spring on his father's farm near Mayfield. His body was found floating on the water only a few minutes after the vital spark had fled, and his pulse was still beating, but all efforts to resuscitate him failed. He is spoken of by the neighbors as a very remarkable child, sprightly and promising beyond his years.—Mayfield Eagle.

Dr. Breckinridge's Col. Delphi, sold, on the 7th inst., at the farm of Dr. Breckinridge in this county, the live stock heretofore advertised in this paper. There were about 120 animals sold—say 84 mules, 38 short-horns, and 8 geldings, at the gross price of nearly \$13,000, or on an average of about \$100 each, all round. The severe and protracted drought, followed by the great injury to the corn crop, and the almost total failure of the fall grass, no doubt seriously affected the price of stock, at present, in this region.—Lex. Obs.

Missouri Compromise.—The Buffalo Commercial Advertiser—which is generally regarded as reflecting Mr. Fillmore's sentiments—concludes an able article about the mooted question of restoring the Missouri Compromise, with the following pointed remarks: "We may consider it demonstrated, therefore, that an act for restoring the Missouri Compromise will never come before the President for his consideration. As connected with the Presidential election, the question is perfectly idle—a mere abstraction unworthy the consideration of a practical statesman. It is unwise to discuss it as an element in the Presidential canvass; it would be equally unwise ever to agitate it again in Congress. The Missouri Compromise is like water spilled upon the sand; it can never be gathered up. Its repeal is a great blunder, but it is too late to correct it. The attempt to restore it at the next session of Congress is defensible, on the ground that it was well offered to the South an opportunity to reconsider its action."

At Bedford.—Col. H. MARSHALL, will address the people of Bedford, Trimble county, on the 23d instant.

Mr. FILLMORE.—In a private letter, received a few days ago from Mr. Fillmore, by a gentleman of Georgia, the following characteristic language occurs: "Whatever may be my fate, personally, is not worth a thought, if the integrity of the Constitution can be maintained, and we can transmit this glorious heritage unimpaired to our posterity." This language is worthy of Millard Fillmore. It is such gems as this that give him so high a place in the affections of the American people, and that breathe that lofty patriotism, and that noble self-denial so characteristic of the man, and which have made his own one of the most illustrious names in the history of our country.

THE NUNS TO BE LOOKED AFTER.—The Risorgimento has the following from Rome: Our Secretary of State has addressed a private circular to all the delegates of the provinces, calling upon them to exercise the greatest vigilance over the nuns that come from abroad, and especially the Dames Du Sacre Cœur, because some of them, under pretence of affording civil and religious instruction, spread seditious doctrines among the young ladies entrusted to their care. The delegates are further instructed to inquire after the Comtesse C. of Bologna, a lady belonging to that religious body, and in case of her being discovered, to arrest her.

Another Letter from Sanford Harrison.—We published some weeks since a letter from SANFORD HARRISON, of New York, an old Democrat, recommending the Democracy to support Mr. FILLMORE. We give another letter from the same gentleman, to the National Democrats of New York and the Union.

It will be remembered, that in a communication I addressed to you some six weeks ago, I urged you to concentrate your strength in this State of New York upon Millard Fillmore, as the only way the defeat of the sectionalism, John C. Fremont, could be compassed. I am a constant reader of many Southern journals, and the song of the whole of them has been, "if Fillmore was out of the way, Buchanan's election was certain." Such I have never believed to be the case, and the result of the election in the State of Maine abundantly demonstrates the fact. Fillmore was not "in the way," there certainly, and we are beaten by 20,000 majority! The question, and the only question that now presents itself to our mind, is whether we will stand by our party, and "let the Union slide," or whether we will go for the Union, and give up our attachment to "party."

In the communication before alluded to, I frankly told you that I preferred the Union to my party, and I should vote accordingly. I have seen nothing "in the signs of the times" lately to change that determination; on the contrary, it has materially been strengthened. I have reason to know that the view I take and have taken of this contest, meets with the approbation of many of the most prominent men in our ranks, but who for obvious reasons will not publicly avow it. You cannot expect leaders, seekers after place at your hands, to come out openly and tell you the whole truth, however apparent it may be to them. You must listen to the "rank and file," if you desire to be honestly enlightened. A journey of three weeks duration through this State satisfies me that, away from post-offices and custom houses, Mr. Buchanan has literally no supporters at all—that the once glorious Democratic party is completely annihilated; and that if we mean to stem the tide of sectionalism, we must vote for the only man who has the chance of success here, and that is Millard Fillmore. Friends and countrymen hear, hear, ere it be too late. SANFORD HARRISON.

SAM'S LINEAGE.—We find the following in a Sag-Nicht exchange: "Like everybody else, Sam had a birth, but as to whom was the father that begot him and the mother that conceived him, many and conflicting are the opinions that have been entertained and expressed."

The stupidity of that fellow—says the Memphis Eagle—is amazing! Sam's lineage is most illustrious. We can trace him back to the charter of liberty wrenched from King John by the Barons of England, and on down to the baptism of tea at Boston, and Bunker Hill, Concord, and Lexington, to the Declaration of Independence, which is his father, and to the Constitution of the United States, which is his mother.

From the New York Commercial Advertiser. A Southern View of the Question.—We commend to our readers the following highly interesting letter from one of the practical and intelligent citizens of Natchez, Miss. It is published in a Natchez paper with the following editorial comment: "Dr. DUNCAN'S LETTER.—We need hardly call attention to the letter, from our fellow townsman, Dr. Duncan, found in our columns to-day. It speaks for itself, and cannot be misunderstood. The high character of the writer—the deep stake he has in the country—the very fact that at one time he arrived at conclusions different from those he now entertains, all give a more than common interest to this production of his pen. The causes which induced Dr. Duncan to write it, are fully shown in the letter itself."

We would simply add that Dr. Duncan is by birth a Pennsylvanian. He was an early emigrant to Mississippi, where he now holds large possessions, acquired by rectitude, skill and industry. A large share of his money, as also that of his immediate family, is spent among us at the North, where he and they annually visit, and have done so for over a quarter of a century. He is now a householder in this city, where he spends his summer months. He is emphatically a National man, and no one in this country has a deeper stake in "Z Phœbus Unum."

Like many from the South he thought Mr. Fillmore had no chance, and he fell back upon the "best candidate"; but investigation of the question points to other results, and he frankly states his convictions.

We regard this letter from such a source as full of sound conservative wisdom; instructive alike to the South and to the North; and we transfer it to our columns and commend it in all confidence to our readers.

NEW YORK, Sept. 13, 1856. MY DEAR SIR:—I received your letter, and learn from it that some letters addressed by me to friends in Mississippi in June last, have created the impression that I now favor the election of Mr. Buchanan. It is due to myself, and especially due to my old friends, that I should explain my course in this matter. When I arrived in this city in May last, I found the public mind much disturbed, and much feeling excited. I became alarmed for the consequences, and when I wrote my friends in the South in the early part of June last, I thought the crisis demanded that the first consideration, with the conservatives of all parties, should be the preservation of the Union—and for the attainment of this great and good object, that no sacrifice would be too great.

I thought this could only be attained by allying the sectional strife, which so disturbs the whole country, and which, if continued must produce the most calamitous results. I then thought and so wrote to my friends in the South, that for the accomplishment of this end it might be well and proper for the Whigs to sustain the election of Mr. Buchanan—and thus make his majority so triumphant that he would feel himself, and be, the President of the Nation, and not of a Party. Besides being advanced in years, I hoped he would have no aspiration for a reelection, and would therefore be likely to administer the government with purity, and without party or sectional bias.

I never commended him to the Whigs as a choice, but as an alternative—as the least of two evils—for I trust thought the contest would be between him and Mr. Fremont alone. Very soon afterwards, however, my views underwent an entire change. I became satisfied that the success of Mr. Buchanan would in no wise tend to allay sectional strife. On the contrary, that his election would aggravate and prolong it, through the violence of his opponents; for it is undeniably true that he is as much a Southern sectional as Mr. Fremont is a Northern sectional candidate. With Mr. Buchanan's election the agitation would be continued—with Mr. Fremont's election the crisis would be the more speedily brought to the culminating point—not simply by his election, but through the measures of his adherents.

Since Mr. Fillmore's return from Europe, his prospects have so strengthened and improved that I think no true Whig can hesitate in his choice. He is the only one of the three suited to the crisis. He is national in tone and sentiment. On him, and through him, a National Party may be built up, strong enough to override all others—and especially all sectional parties. His friends may confidently rely on his obtaining the vote of this State. I entertain the opinion that the success of all parties, heretofore, has depended more on their organization than on their principles. If this be so, then Mr. Fillmore ought to carry New York,

she tried Holloway's Pills, which she used three  
weeks, and found they considerably improved her.  
By continuing with these wonderful Pills for ten  
days more, all obstructions were quickly removed,  
and she has since enjoyed the best of health.

Eminence Fair.—On the second page,  
we give the List of Awards at the Sixth  
Annual Exhibition of the Union Agricultural  
and Mechanical Association.

Louisville Fair.—The people of Shelby,  
Henry and Oldham come in for a fair pro-  
portion of the awards at the Louisville Fair  
last week. We have not the leisure to se-  
lect them out for this issue; but will en-  
deavor to do so by our next.

Public Services of Millard Fillmore.—  
We have received from the Publishers,  
WANZER, McKIM & Co., Buffalo, New  
York, a copy of W. L. BAKER'S "Life and  
Public Services of Millard Fillmore."  
This work is no electioneering document.  
The author, who is a Kentuckian, has had  
solely in view the aim of presenting a truth-  
ful and interesting record of one whose ear-  
ly life, untarnished character, and public  
career, have created a bright example for  
the encouragement of American youth,—  
for whom it is especially designed. We  
advise all to procure a copy, with the hope  
and expectation that many will find in its  
pages an incentive to just ambition.

Godey's Lady's Book.—We have re-  
ceived "Godey" for October. The num-  
ber is equal, if not superior, to any of its  
predecessors of the present year. And that  
it is saying as much as we could say, were  
we to write a column.

The January no. commences a new vol-  
ume—the fifty-fifth. Now is the time to re-  
new subscriptions, and form clubs. Ad-  
dress,  
L. A. GODEY, Philadelphia.

Peterson's Magazine.—The November  
number of Peterson's Magazine is on our  
table. It is filled with very interesting ar-  
ticles, and embellished with a number of  
engravings,—some very fine.

A new volume commences with the Janu-  
ary number. The present is therefore an  
excellent time to form clubs. The terms  
are as follows:  
One copy for one year, \$2; three copies  
\$5; five copies \$7.50; eight copies \$9;  
twelve copies, \$15; sixteen copies, \$20.  
Address,  
CHAR. J. PETERSON,  
102 Chestnut Street, Philadelphia.

FROM NICARAGUA.—The Texas arrived  
at Norfolk on the 17th, with later dates  
from Nicaragua. Walker is receiving re-  
inforcements, the most of whom are from  
the United States. A decisive battle was  
expected on the 22d of October. Maj.  
Heiss had been dispatched by WALKER to  
exchange with the United States the ratifi-  
cation treaty confirmed by the Senate at  
Washington.

N. P. WILLIS, the Poet, and Editor  
of the "Home Journal," the Albany Even-  
ing Journal says, has announced himself  
for the Republican cause, and will give his  
"virgin vote" for FREMONT!

Fine Pictures.—We have in our office  
two remarkably fine pictures, executed by  
Jno. W. WILLIAMS, Daguerrean Artist of  
this place. One is a Portrait of Hon. MIL-  
LARD FILLMORE, taken from an engraving in  
BARRA'S Life and Services. It is a most  
capital likeness; and Mr. WILLIAMS'S copy  
from it is excellent.

The other picture is a copy of the en-  
graving representing the death of GEORGE  
SHILLER, in 1844. He was basely murder-  
ed by the Irish Papists, in Philadelphia,  
because he was gallantly bearing the Ameri-  
can National Flag, in the streets of that  
city.

We thank Mr. WILLIAMS for his kindness  
in placing in our office such elegant speci-  
mens of his art.

Who has one?—A friend desires to pur-  
chase a Negro Girl, about 14 years of age  
—likely, sprightly, and healthy. He wants  
her for his own use.

Any person having such a one for sale,  
will please let us know terms, etc.

The notice for a mass meeting and  
barbecue, which had been appointed for  
Campbellsville, has been recalled, as the  
Bingo meeting of the American Party of  
Shelby and vicinity had been previously ap-  
pointed for the same day—the 24th inst.

Turn Out.—We hope the people of the  
southern section of our county, and of  
Spencer and Anderson will turn out to hear  
Col. MARSHALL and other speakers, at  
Rockbridge, on the 29th instant. We feel  
assured that the Americans of that section,  
whether they have a regular Barbecue, or a  
"Basket Meeting," will have ample pro-  
visions for all who can attend. Therefore  
turn out.

Each valley, each sequestered glen,  
Muster its little bands of men,  
From the gray sires, whose trembling hand  
Can hardly buckle on his band,  
To the raw boys, whose shaft and bow  
Are yet scarce terror to the crow,  
Still gathering as they pour along,  
A voice more loud, a tide more strong,  
Till at the rendezvous they stand!

Next Saturday.—The very comfortable  
Dwelling House and Lot, in Shelbyville,  
recently occupied by Rev. G. W. Brush,  
will be seen, by reference to the adver-  
tisement, will be sold on Saturday next,  
the 25th, instant, certainly and positively.

American Basket Meeting.—The Am-  
ericans of Sligo, Henry county, and vicin-  
ity, have a Basket Meeting next Friday,  
the 24th. Able speakers, have been in-  
vited to attend, and are confidently expected.  
We hope the people will turn out en masse  
to hear. The Union Gun Squad of this  
place will be on hand.

Col. Marshall, in Shelby.—We wish it  
to be borne in mind, that Col. HUMPHREY  
MARSHALL will be in Shelby county, on the  
29th and 30th of this month.

On Wednesday, the 29th, he will speak  
at Rockbridge, in the southern section of  
the county.

On Thursday, the 30th, he will speak at  
Jacksonsville; and at night of the same  
day, he will speak at Christiansburg.

Dr. H. M. Barclay, of Pennsylvania,  
a Democratic member the present Congress,  
has declared his preference for Fremont.—  
So they go. Buchanan's own friends, in  
his own household, are fast deserting him.

Be at Work, Friends.—We hope the  
Americans in the vicinity of Rockbridge,  
and Jacksonsville, will get up Basket Meet-  
ings, or Barbecues, at the time Col. MAR-  
SHALL is to speak at each place. Let the  
information of his coming be circulated,  
and let the people turn out to hear him.

Remember the days: Wednesday, the  
29th at Rockbridge; and Thursday, the  
30th at Jacksonsville.

Information Wanted.—In declining the  
proposition of the Americans, to hold a joint  
Baibee, on the 4th instant, near Ship-  
pensburg, the Democratic committee  
threw out a banter for a public discussion,  
by speakers of the two parties, at sometime  
prior to the election. This banter was  
promptly accepted by the American com-  
mittee, and the Democratic committee was  
notified of the time and place, and of the  
name of one of the American speakers.—  
Col. MARSHALL: the names of others were  
not given at the time, because they had  
not been heard from.

We have not yet heard of any response  
on the part of the Democratic committee.  
Have they backed out from the discussion?  
Information is wanted. If they intend to  
have their speakers ready for the discussion,  
let us hear from you, gentlemen.

They Decline.—The foregoing was pre-  
pared for our issue of last week; but was  
crowded out. As we were preparing for  
press the inside form of this issue, we were  
informed by a member of the American  
committee, that the Democracy had "back-  
ed down, and crawled out."—They "re-  
spectfully decline" to meet the American  
party in discussion; although they were the  
challenging party! Their principles  
will not bear an investigating analysis be-  
fore the people.—They are afraid to let  
their speakers discuss their principles with  
American speakers, before the members of  
their party. We hope the independent  
portion of that party will note this refusal  
to meet for discussion, after they had given  
the challenge, and invited the American  
party to name time and place.

The Book says, "men love darkness rather  
than light, because their deeds are evil."—  
Our anti-American friends hate and avoid  
far, open discussion, because their double-  
faced platform and principles will not bear  
being exposed to their followers by Ameri-  
can speakers.

Barley without Beards!—We have re-  
ceived from Mr. J. W. BRIGGS, of West  
Macedon, Wayne county, N. Y., a sample  
of Barley without beards. The variety  
was discovered in the gulches of the Hima-  
layan Mountains. Mr. BRIGGS obtained  
seven grains three years ago, and from that  
basis he has now a quantity sufficient to  
send out, to agriculturists who may desire  
a few grains to commence the cultivation  
of the variety. Each cultivator of Barley  
is requested to send his address on a stamp-  
envelope, to Mr. BRIGGS, who will en-  
close in it a head of the barley, containing  
from thirty to sixty grains, with printed  
directions for cultivating in a way to insure  
a large return from a small quantity of seed.  
Mr. B., in small quantities as above, cheer-  
fully distributes this new kind of Barley  
gratis. But, should any person desire more  
than one head, he will for twenty-five  
cents send a package of 700 to 800  
grains, post-paid, accompanied with a few  
heads to prove the fact of its being beard-  
less.

Any person desiring to examine the sam-  
ple of heads sent to us, are requested to  
call at our office. We believe, as yet, its  
merits have not been tested for grinding  
and malting,—the quantity being too small  
to squander in that way. Should it, how-  
ever, be found to answer all the purposes  
of the common Barley, a few years will  
suffice to drive the "barley beards" from  
the country.

An American Matron's Dying Words.  
—Returning from the Georgetown meeting,  
last week, we heard the following incident:  
A pious and patriotic lady, of Hart county,  
departed this life a few days since, at the  
age of 83 years, uttering with her latest  
breath these striking words: "My God first,  
and MILLARD FILLMORE next—for in his  
hands I know my country will be safe."

Let voters at the polls remember these  
dying words of this American matron, and  
if they are as true to their own consciences  
as was she, they too will declare for MIL-  
LARD FILLMORE, as the only man in whose  
hands the country will be safe.

Meeting at Georgetown.—The Ameri-  
cans of Scott county, held a meeting at  
Georgetown, on Thursday last. Despite  
the inclemency of the weather, about 8,000  
were present; the most of whom stood for  
hours, in a cold rain, listening to the speech-  
es. The utmost enthusiasm prevailed, and  
had the day been fair, the number would  
have reached 12,000 or 15,000.

A number of speakers were present, three  
standing being occupied. NAT. WOLFE, Esq.,  
a member of the late Whig National Con-  
vention, made a telling speech; and we  
wish some of the "Buchanan Whigs" who  
in this county, could hear his account of the  
scenes he witnessed at the meeting of that  
body. They would no longer denounce it,  
as they now do, as a "Know Nothing trick."

The "old war-horse," Gov. LETCHER,  
occupied the attention of the crowd, for an  
hour or more, with one of his masterly  
speeches. The Governor said his physi-  
cians advised him not to take any part in  
this canvass, but "his country was in dan-  
ger, and as long as he had the voice to speak,  
he should be heard calling on his country-  
men to rally for the Union candidates, FILL-  
MORE and DONELSON!" Long may his life  
be spared; such patriots are needed in the  
hour of danger.

The Americans of Scott are at work;  
and it will require an extra importation of  
"carpet-bag men," to enable the "American  
Democracy" to give their usual majority  
in that county.

Hon. THOS. F. MARSHALL addressed  
a large audience in the Court House, in  
this place, on Friday night last. We have  
heard Mr. MARSHALL on several occasions;  
but we think that on Friday night we heard  
the best speech we ever heard from him.  
It was, for the greater part, a close logical ar-  
gument on the power of Congress to legis-  
late for the Territories; and a succinct  
history of the course of the Republican  
or Democratic party under the lead of Jef-  
ferson, Monroe, Madison, Jackson, Lowndes,  
&c., on the subject. A part of the speech  
was a vindication of Mr. CLAY from the  
misrepresentations of the Douglas, Pierce  
and Buchanan Democracy. His eulogium  
on the great Commoner was the most elo-  
quent thing of the kind we ever listened to.

Disunion.—The plot thickens. The  
leading Buchanan men of the South—Wise,  
Hunter, Mason, Butler, Brooks, Toombs,  
Cobb, and others, are by letters and speech-  
es avowing their disunion sentiments. Sen-  
ator Mason says in a published letter: "In  
my calmest judgment, but one course re-  
mains for the South: immediate, absolute,  
and eternal separation!"

Gov. Wise and the Richmond Enquirer  
are arguing the benefits to be derived from  
having a Southern Confederacy. And all  
over the South traitors are openly avowing  
that for years they have been working to  
bring about a dissolution of the union of  
the States, cemented by the blood and toil  
of the patriots of 1776. And these men  
avow that they oppose MILLARD FILLMORE,  
because he would make so good a Presi-  
dent that he would throw back for years, if  
not crush out altogether, the prospects of  
dissolution!

Patriots and lovers of the Union be-  
queathed you by noble sires, what is your  
duty under these circumstances? If you  
doubt the object of the Southern leaders of  
the Buchanan party, get any number of  
the Richmond Enquirer, Charleston Mer-  
cury, or any Southern journal in the inter-  
est of that party, and your doubts will dis-  
appear.

If you desire to perpetuate the glorious  
institutions of this free Republic, vote for  
MILLARD FILLMORE. He is the only man  
now before you, as a candidate for your  
suffrages, who can still the tempest, and  
guide the ship of State safely to the haven  
of peace.

Look out for Frauds.—We warn the  
people to watch out at the coming election,  
to prevent frauds upon the elective franchise.  
In one precinct in this county, we learn, from  
authority unquestionable, there are quar-  
tered some sixteen or seventeen men, who  
are not voters, if citizens; but who have  
been heard to avow their determination to  
vote—"peaceably if they can—forcibly if  
they must." In another precinct, there will  
be an attempt to vote about twenty il-  
legal votes. Let the citizens of Shelby be  
on their guard; and see that no man votes  
unless he has the legal right to do so. A  
fraud upon the elective franchise is the  
worst of corruption.

Look Out.—We understand, that Gov.  
WRIGHT, and WILLARD, Governor elect, of  
Indiana, are in Kentucky, on a speak-  
ing tour. We again caution the owners of  
slaves to look out. WRIGHT and WILLARD  
have always been, and are now, the strong-  
est kind of political Abolitionists. Their  
record as such, is as glaring as Gim-  
pkins's, SCHUNK'S, HALE'S, or their old  
and present coadjutors, the VAN BURENS.

Frauds on the Elective Franchise.—In  
another column we give some startling facts  
in reference to the importation of voters in  
this State, for the purpose of attempting  
frauds upon the elective franchise. For  
some time back, the Journal has been call-  
ing attention to the stream of men coming  
into the State, each carrying a black car-  
pet-bag; and all making for the mountain  
counties, or points where the anti-Ameri-  
can party have the opportunities of voting  
bogus citizens. The facts given in the ar-  
ticle we copy to-day should arrest the at-  
tention of the people.—Messrs. STRATTAN  
and RAUCH are men we know personally,  
and their avowments are unimpeachable.  
From the reputation of Mr. FELKER we be-  
lieve the same may be said of him. Fur-  
ther, the Sag-Nicht and anti-American pa-  
pers of Louisville, fully admit all the facts;  
and only attempt to refute them by ridicule!  
As if frauds upon the elective franchise  
was a matter for jest and ridicule! We  
believe that the right to vote is one of the  
highest privileges and most important dis-  
ties belonging to the American citizen. It  
is a privilege which is held in trust alone  
for the benefit of the country, and he has  
no right to use it otherwise than for the good  
of the people of this whole nation. He who  
gives his vote merely for private friendship,  
or solely for the sake of party, trifles with  
the most inestimable office that man was  
ever invested with. How much greater  
then the crime of those who deliberately plan  
and execute frauds upon the elective fran-  
chise. The exposure of such attempts is  
no matter for ridicule and jest—it should  
cover the corrupt partisans with shame,  
and call down upon their heads the cen-  
sure, obloquy and contempt of every citi-  
zen.

The Elections.—In Ohio, the election  
on the 14th resulted in favor of the Repub-  
licans. We have as yet seen no official  
account. The estimated majorities  
are all that the papers give.

In Indiana, the Buchanan anti-American  
ticket is elected by about 5,000, over the  
People's Ticket. At least 20,000 Fillmore  
voters refused to vote; and in many cases  
Americans voted for the Buchanan ticket.

In Pennsylvania, the Buchanan State  
ticket has succeeded by about 6,000.

The result of the elections in Indiana  
and Pennsylvania is no indication how  
those States will go in November. There  
is no doubt, that in Indiana there is a very  
heavy majority against BUCHANAN, as in a  
race with FILLMORE; and the November  
election will show it.

As to Pennsylvania, we are now con-  
fident that it can be carried for FILLMORE.  
It is well known, that the most extraordi-  
nary means were used to carry the State at  
this election. The Washington Organ, on the  
14th instant, stated that  
"More than half a million of dollars have  
been collected in the various cities and  
carried into Pennsylvania, to promote the  
success of the Buchanan ticket. Nearly  
8,000 foreigners have been naturalized in  
Philadelphia within the last few weeks—  
thousands of men from the adjacent States  
have been bled to go into Pennsylvania  
and vote—bands of ruffians from New  
York are imported there to alarm and in-  
timidate the Americans—this administration  
and its friends have sent on men from  
this city to vote there to-day; and, in fine,  
every description of means possible to be  
used have been adopted to carry Pennsylv-  
ania for the Buchanan ticket."

And yet, with all these exertions, they  
have carried the State by only 6,000!

It will be recollected, that in 1840, at the  
October election, the Democracy carried the  
State by a large majority; at the No-  
vember election, Gen. HARRISON carried it.  
Again, in 1848, the Democracy carried the  
State at the October election; but at the  
November election Gen. TAYLOR carried it  
by over 13,000 majority. We have no  
apprehension of Pennsylvania now. The  
thing is settled, if the American party but  
do their whole duty.

Read This!—A citizen of South Caro-  
lina, at present at the North, writes to the  
Charleston Courier as follows:  
I am truly sorry to see Southern speak-  
ers abusing and traducing Mr. Fillmore, as  
some of our Harry Percy, south of Ma-  
son's line, scruple not to do. Mr. Fill-  
more, at the North, is fighting both his own  
and Buchanan's battle;—if he be not elec-  
ted, his running will tend to defeat Fre-  
mont and favor Buchanan. Were Mr. F.  
to withdraw, the Pathfinder would cer-  
tainly carry both New York and Pennsylv-  
ania, and, of course, "run down the old  
buck"—and, to say the least, it is bad pol-  
icy, (as well as unjust and ingratifying to  
a patriot statesman) to level the artillery  
and fire of Democracy against Mr. Fillmore,  
in so offensive a way. Ex-Gov. Floyd, of  
Virginia, whose very pleasant acquain-  
ance I made night before last, expressed to  
me the opinion, that Buchanan and Fill-  
more ought and would have to unite, or  
combine, in order to throw Fremont out of  
the game.

Florida.—The Buchanan anti Americans  
have been crowing largely for two weeks  
that Florida had gone for their party. The  
indications are, by the latest returns, that  
the Fillmore State and Congress tickets are  
elected by decided majorities.

A new Dodge.—The evidence that JOHN  
C. FREMONT was, if he is not now, a Pa-  
pist, has thickened so fast, and is so un-  
speakably conclusive, that the New York  
Tribune has issued a pamphlet with certi-  
ficates stating that there are two JOHN  
CHARLES FREMONTs! that they are so much  
alike they can hardly be told apart; that  
they were both in the U. S. Army; that  
one was a Protestant and one a Papist;  
and that hence has arisen the discussion  
about the religion of the Black Republican  
candidate!

The Sufferer's Friend.  
Hurley's Sarsaparilla is unquestionably the most  
efficacious remedy that can be administered; indeed  
the only one on which you can rely as a safe and per-  
manent cure of eczema, liver diseases, diseased  
kidneys, syphilis, dyspepsia, or any form of cuticular  
eruption, dependent on an impure or vitiated con-  
dition of the blood. Try a few bottles and you will  
find the money well-spent.—St. Louis Herald.

TO MY FRIENDS.  
I want to start South a little earlier than usual this  
season, and would urge upon all who have engage-  
ments with me, and all others, the propriety of an  
early call.

I am prepared to make all the variety of PIC-  
TURES ON GLASS, which are warranted to be  
as durable as time itself. All who have not seen  
specimens of this kind of work will please give me  
a call.

I shall need all the money owing to me, and I  
trust my patrons will promptly square up.

The First Annual Fair  
of the  
Agricultural and Mechanical Association  
Will be held on the Fair Grounds, near Bardonia,  
Ky., commencing Tuesday, October 21, 1856,  
and to continue four days.

The grounds being handsomely enclosed, and the  
amphitheatre completed, there will be ample room  
and accommodation for all who may see proper to  
attend.
